You're likely familiar with North American Arms, the makers of the near-legendary tiny stainless steel single-action .22-caliber revolvers. Our giveaway this month includes one of their best sellers, the Sidewinder. And if you're the lucky winner, you'll not only get the gun, you'll get the Long Rifle Conversion Cylinder as well!

NAA is famous for making some of the most concealable single-action revolvers around. The only problem was slow reload time, but not anymore! By simply pulling the ejector rod forward a tiny bit, the cylinder actually swings out, just like a "real" double-action revolver. While the Sidewinder is still single-action, the new model also has a genuine ejector rod and ejector star which will push the empties out all at once, far enough you can pluck 'em with a fingernail. It's definitely easier to load/unload than the other designs.

This .22-caliber handgun has a 5-round capacity and 1" barrel length. It has an overall length of 5" and unloaded is only 6.7 ounces: talk about easy to conceal! This will be a great addition as a backup gun for any cop out there.

FEATURES:

- Caliber: .22
- Action: Single
- Capacity: 5
- Overall Length: 5"
- Weight: 6.7 ounces
- Width: Less than 1.25"
- Sights: Stainless steel post
- Grips: Laminated rosewood
- 2 barrels included
